## ***GARLOCK Style 3535 JOINT SEALANT STORAGE INSTRUCTIONS***

- 1.) Store in a cool, dry area.
- 2.) If exposed to greases, oils, or solvents in liquid or vapor form, clean before installing.
- 3.) Store away from incidental exposure to all types of radiation.
- 4.) Following extended storage, carefully inspect the material for damage.
- 5.) If in doubt concerning any of the above provisions, consult the factory.

The shelf life for GYLON® Style 3535 Joint Sealant is indefinite based on ideal storage conditions. The shelf for the adhesive used is 2 years, if stored with 50% humidity and 70°F. The adhesive has been known to be effective several years beyond the stated shelf life.
