

Garlock Style 7910 Chevron®

MATERIAL PROPERTIES*:

Composition:	PTFE with high temperature aramid/fiberglass fabric
Recommended for use against:	Mild acids, alkalies, oils, fire-resistant fluids, steam, solvents, water, water glycol, water in oil
Heat Resistance:	Very Good
Pressure Rating:	Medium to high
Abrasion Resistance:	Good
Temperature², °F (°C)	
Minimum:	Cryogenic
Maximum:	+450 (+232)
