

HYDRA-JUST Piping Diagram - Minimum Requirements

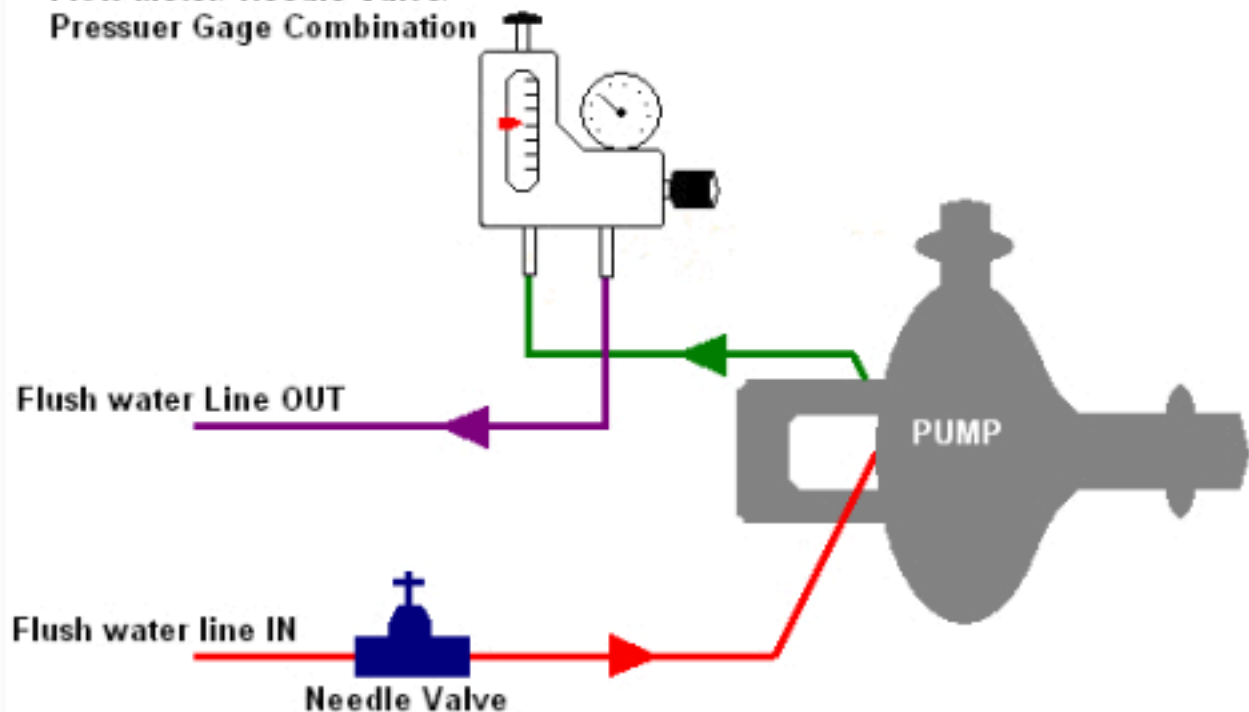

Notes:

- 1) Lowest cost while still allowing the HYDRA-JUST to function.
- 2) Does not allow monitoring of flush fluid entering the system.

HYDRA-JUST Piping Diagram - Better Case Set-Up Requirements

Flow Meter/ Needle Valve/
Pressuer Gage Combination

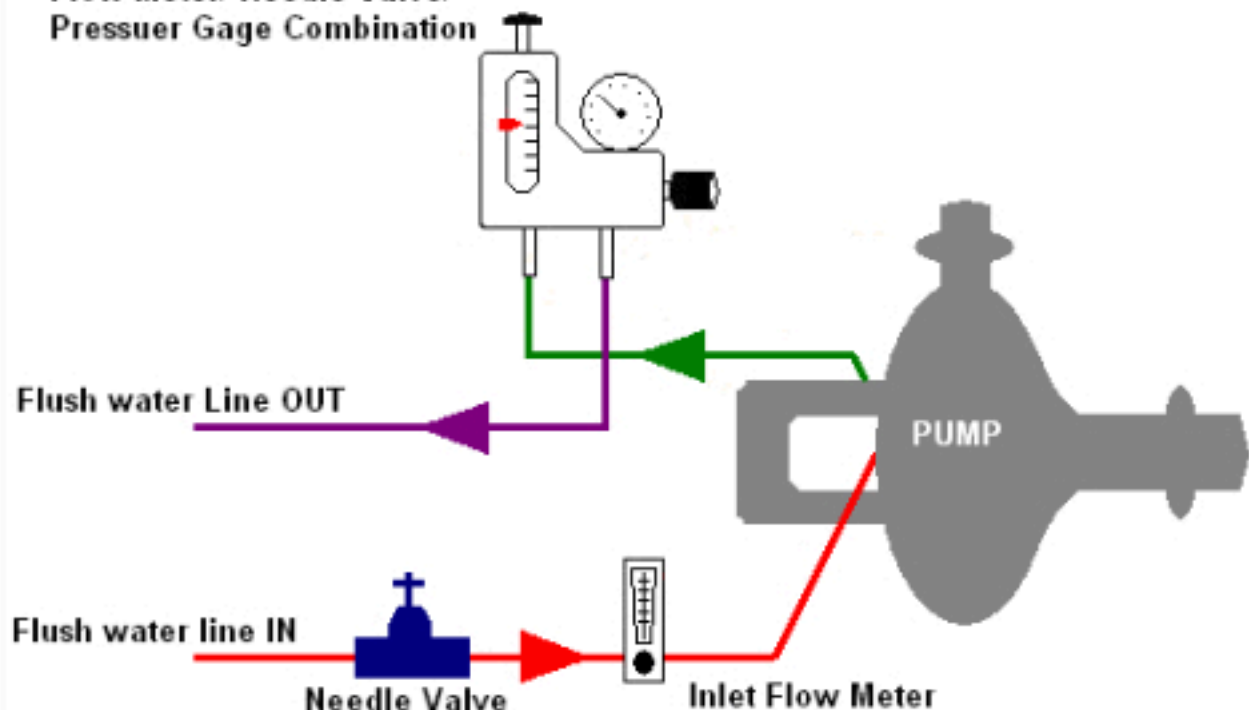

Notes:

- 1) Allows for monitoring of the flush outlet flow rate.
- 2) Does not allow for complete flush system monitoring.

HYDRA-JUST Piping Diagram - Best Case Set-Up Requirements

Flow Meter/ Needle Valve/
Pressur Gauge Combination

Notes:

- 1) Allows complete monitoring of system.
- 2) Can control and monitor how much flush is being consumed in the HYDRA-JUST sealing system.
