

FOR IMMEDIATE RELEASE

Garlock to Exhibit at “Off Shore Korea 2016”

Highlights:

- Garlock will exhibit together with Samsung Precision Engineering
- Show will be held October 19th-21st, 2016, in Busan, Korea
- Partnership with SSPE gives Korean customers' access to a wider variety of Garlock Products.

PALMYRA, N.Y. (October 11th, 2016) – [Garlock](#), a leading manufacturer of high-performance fluid sealing products, proudly announces their presence at Offshore Korea 2016, October 19th-21st, BEXCO in Busan, South Korea.

Garlock will be exhibiting the second time in partnership with Samsung Precision Engineering (SSPE), an authorized distributor in Korea. This partnership gives Garlock the ability to better serve Korean offshore customers and shipbuilding EPC contractors.

On display at the show will be a variety of products meant for use in the offshore industry, including:

- [Premium GYLON[®] gaskets](#), a family of flat polytetrafluoroethylene (PTFE) gasketing materials manufactured to decrease creep relaxation problems that typically plague PTFE products.
- [Butterfly valves](#) are renowned throughout the chemical, petrochemical, process, and many other industrial sectors for their quality, performance, and reliability in arduous conditions.
- [High-durability expansion joints](#), meant to protect pipelines on offshore platforms from damage due to physical movement, thermal change, load stress, pumping surges, wear or settling.
- [Flange Isolation kit gaskets](#), designed to effectively complete the electrical isolation of a flanged assembly.

All Garlock products designed for the offshore industry provide superior performance, reliability and service, and perform exceptionally well in critical environments.

About “Offshore Korea 2016”
