

FOR IMMEDIATE RELEASE

## Garlock and Rubber Fab Technologies announce deal at INTERPHEX

### Highlights:

- Garlock acquires business and assets of Rubber Fab in a deal that brings together two world-class providers of sanitary gaskets, seals and hygienic fluid path solutions
- The combined portfolio is the widest range of high-end sealing solutions and process consumables for pharmaceutical and bio-processing applications
- Both companies are exhibiting at INTERPHEX 2016 and looking forward to a strong future together

PALMYRA, N.Y. (April 26, 2016) - [Garlock](#), a leading manufacturer of high-performance fluid sealing products, has acquired the business and assets of [Rubber Fab Gasket & Molding Inc.](#) through its parent company EnPro Industries.

Rubber Fab, headquartered in Sparta, NJ, is a recognized supplier of high performance sanitary gaskets, hoses and fittings for hygienic process industries such as pharmaceutical, bio-processing and food & beverage. The addition of Rubber Fab expands Garlock's presence and scale in the hygienic market space and complements Garlock's existing sealing solutions to provide a truly comprehensive portfolio.

Both companies are exhibiting their full line of pharmaceutical and bio-processing solutions at INTERPHEX, April 26-28, at the Javits Center in New York City. Garlock is exhibiting at Booth #3164, while Rubber Fab is exhibiting nearby at booth #3327. The timing of the deal and the presence of both companies at this show is a great opportunity to inform the market, and also allow customers to learn about the full suite of great product and technology brands from both companies.

- Garlock presents the GYLON® range of gaskets, the complete GYLON BIO-LINE range of hygienic seals, ONE-UP® diaphragms for AODD pumps, and PS-SEAL for critical rotating shaft applications.
- Rubber Fab presents state of the art technology for the biopharmaceutical industry, with trademarked products such as Tuf-Steel®, Tuf-Flex®, Torque-Rite®, Smart Gasket®, Detectomer®, ADI Free® and Smart Clamp™.

"End-users, specification engineers and equipment manufacturers working across the pharmaceutical and bio-processing industry continue to demand more from their sealing and component suppliers," Garlock Vice President of Global Sales and Business Development Brad Lodge said. "By welcoming Rubber Fab into the Garlock Family of Companies, we can leverage the combined reach and experience of both companies, and ensure that we provide the largest portfolio of high performance sealing and fluid

path solutions. This deal demonstrates our commitment to continued growth and innovation in this industry, and allows us to better serve customers across the world with our incredible range of process solutions.”
